

## EIDBI Services Overview: Supporting Children with Autism

### What is EIDBI?

Early Intensive Developmental and Behavioral Intervention (EIDBI) is a Minnesota-based program designed to provide individualized treatment for children with autism spectrum disorder (ASD) and related conditions. The goal of EIDBI is to improve communication, social interaction, and daily living skills through evidence-based interventions.

### Who Can Receive EIDBI Services?

Children and young adults (under age 21) diagnosed with ASD or related conditions.

Families who need support in understanding and managing their child's development.

Individuals who meet Minnesota's eligibility criteria for EIDBI services.

### Services Offered

Comprehensive Multi-Disciplinary Evaluation (CMDE): An in-depth assessment to determine a child's needs.

Individualized Treatment Plan (ITP): A customized plan outlining intervention strategies.

Direct One-on-One Intervention: Personalized therapy sessions focusing on behavior, communication, and life skills.

Parent and Caregiver Training: Equipping families with skills to support their child's growth.

Care Coordination: Assistance with accessing additional resources and services.

### Benefits of EIDBI Services

✓ Improved communication and social skills ✓ Increased independence in daily activities ✓ Support for families navigating autism care ✓ Evidence-based strategies tailored to each child's needs

### How to Get Started

Schedule a CMDE Assessment: Contact an approved EIDBI provider to begin the evaluation process.

Develop an Individualized Treatment Plan: Work with providers to create a strategy suited to your child's development.

Begin Services: Start intervention sessions with trained professionals.

Why Choose Golden Star LLC?
